<u>www.hcarc.us</u> JULY 2014 Toms River, NJ

# **Program for Our July Meeting**

Our Treasurer, Larry Puccio K2QDY will show off his new Elecraft do-it-yourself transceiver. We'll have a brief discussion about rechargeable batteries, and maybe a hands-on lesson on soldering. Two special awards are scheduled, and we'll have the experienced "experts" ready to answer whatever questions you may have.

## Happy Birthday to:

John Hann K2JWH
Lucille Hann
Paul Hansen N2QXB
Carl Lee W2PTZ
Norm Smith W2PXE
Stan Stefiej KB2PD

Jean Young

# Happy Anniversary to:

John & Lucille Hann Larry & Grace Puccio

# OUR NEXT MEETING

Thursday July 3 at 7:00 PM
Bldg A, Meeting Rm. #1
Holiday City South Clubhouse
Santiago Drive at Mule Road
Toms River, NJ

## **July is Islands Month**

The month of July will feature The Radio Society of Great Britain's Islands on the Air station activations culminating with the RSGB IOTA Contest on July's last weekend.

Work 100 different island numbers and you get an award. For 200 or 300, you get a more prestigious one. Amsterdam Island is AF-002. Amsterdam Island won't be on the air, but Jersey (the English island near France), will be. New Jersey's islands, including Long Beach Island right here in Ocean County, are all grouped as IOTA number NA-111.

#### **WARNING: Counterfeit Batteries**

If you bought rechargeable batteries on the Internet, there's a strong possibility they're fakes.

If they're counterfeit lithium ion batteries, they may even catch on fire.

The problem is that some types of lithium ion batteries need to have internal circuitry to prevent overheating.

Without that protection, they are dangerous.

Types of lithium ion batteries without internal protection are designed to be used only in equipment that protects them from being overcharged or overloaded.

They must not be treated like nickel-cadmium or nickel-metal-hydride cells.

There are also many shoddy counterfeit nickel-metal-hydride batteries for sale on the Internet, bearing familiar names like Canon, Energizer, and Sanyo.

To sum up, buy your batteries only from stores you can trust.

If you notice that the print on the label isn't clear and sharp, or there's a typo, or they don't hold a charge, return them and try to get your money back.

For more information on fake Canon batteries and other items, Google "Counterfeit Canon Batteries".

## **Ocean County ARES® News**

During the last meeting of Ocean County ARES, Keith – KC2OON, was kind enough to put together a Digital Radio Communications presentation complete with color handouts! Thanks to Keith and Barbara for putting the effort into this fine presentation.

Keith covered the differences between Icom D-Star and Yaesu Fusion or C4FM (Constant Envelope 4-Level FM) and gave a great background introduction into the various types of digital communications systems that are available for commercial and Amateur Radio use.

Also, during the next meeting of Ocean County ARES in August, a Yaesu FT1DR (HT) and FTM-400 (Mobile) will be available for hands-on training. The FTM-400 is being mounted in a portable rack for training purposes and those attending the August meeting will be able to test the digital and analog operation of these two transceivers.

On June 6<sup>th</sup> the new Yaesu DR-1 repeater was put into operation at the Manchester Water Tank site of WA2RES/R, with an output frequency of 145.170 MHz. The PL still remains as 131.8

The DR-1 Fusion repeater is being operated in an Auto in/Auto out mode, meaning that if an FM signal is inputted into the repeater, the output will be normal FM. If a C4FM digital signal is inputted into the repeater, then the output will be C4FM digital. Understandably, there are some concerns by operators with normal FM transceivers, that C4FM digital communications will not be able to be heard. This is true for all those around the world using the new Fusion DR-1 repeaters. All I can suggest is to announce (via FM) that you will using digital mode for a QSO prior to shifting to digital and announce (via FM) when your digital QSO is over.

Another alternative would be to operate the DR-1 repeater in a mode known as Auto/Fix. This would result in a fixed FM output with either digital or FM input. This has been tried on other repeater sites and has received negative comments by those investing in C4FM capable transceivers, who would like to take advantage of the new technology and find Auto/Fix self-defeating.

All future Ocean County ARES nets using WA2RES/R will remain in FM so that all can benefit.

There is also a plan to make the fourth Ocean County ARES

Training Net of the month a simplex net, since past emergencies have demonstrated that simplex operations are a must during sustained widespread power failures that deplete repeater backup power sources. I realize that not all may be able to communicate during simplex due to power or antenna restrictions, so we may hold two nets on the fourth Wednesday, when possible. First a repeater net on WA2RES/R, then a simplex net after the repeater net closes.

The National Weather Service in Mount Holly has recently issued a directive, which will revise the headline of Bulletins related to particularly dangerous thunderstorms to "THIS IS AN EXTREMELY DANGEROUS AND POTENTIALLY LIFE THREATENING SITUATION". The issuance of these enhanced warnings will be rare and reserved for very significant weather events. The main criteria to trigger the enhanced warning with a headline are:

"Widespread destructive winds of 70 MPH or greater and very large hail the size of golf balls or greater capable of producing significant damage".

73 de WX2NJ Bob Murdock Ocean County Amateur Radio Emergency Service® EC

## George Lewis Waked, SK

George L. Waked, 96, one of our faithful members for 20 years, passed away on May 20. Many of us didn't know him, as he has not been able to attend HCARC meetings for several years because of a stroke. He had held novice license KB2OQM. He leaves son James W. Waked, daughter Patricia Cottrell, eight grandchildren and ten great-grandchildren.

## **Delivering the Mail**

One of the many nice things you can do with a minimum of equipment is deliver a Radiogram. That means a formal, written message that is sent by ham radio. All it requires is that you call into a local traffic net, and if there are any messages for your area, offer to deliver one. The actual delivery is almost always by telephone, so the address usually includes a phone number to call.

When you make the call, smile (it affects your voice) and say that you're a ham radio operator, and you have just received a greeting from so-and-so for whom-ever. You ask if you may read it.

What you receive from the net has four parts:

- a Header listing the message serial number, an urgency code, originating station's callsign, the number of words in the Message, the originator's location, date and time.
- the Address and phone number
- the Message
- · the Signature

Continued on page 4

#### Internet and e-Mail Address Links

Internet addresses and most call signs in The SKYHOOK are now hyperlinks to web sites or email addresses. If clicking on the link does not bring up what you want, <u>copy</u> the address and <u>paste</u> it into your search box.

#### Our VE Crew

Murray <u>KD2IN</u>, John <u>K2JWH</u>, Ed <u>W1EAP</u>, Larry <u>K2QDY</u>, John <u>KQ4WR</u>, Stan <u>KB2PD</u>, Steve <u>N2WLH</u>, Kevin <u>W2FA</u> Walter <u>KC2LFD</u>, Paul <u>N2QXB</u>, Larry <u>WA2VLR</u>.

License exams are given by appointment at 7pm on the second Wednesday of each month at Holiday City South Clubhouse, Bldg A, which is at the corner of Mule Rd. and Santiago Dr. Call Larry Puccio, K2QDY, at 732-349-2950 for information or to schedule an appointment.

<u>Directions</u>: From either Route 37 W or Davenport Road, take Mule Road to Santiago Drive. Turn into the parking lot from Santiago Drive, and park near the pool. Enter the building nearest the intersection.

#### **CLUB COMMITTEES**

JSARS Traffic Net: Daily, 7:30pm, 146.910MHz, -600kHz, 127.3Hz
South Jersey Net: Daily, 8:00pm, 145.470MHz, -600kHz, 127.3Hz
Central Jersey Net: Daily, 8:00pm, 146.760MHz, -600kHz, 156.7Hz

## **How To Originate a Radiogram**

A printable Radiogram form is available at the arrl.org website.

**Precedence Code:** "R" for Routine (usually next day delivery), "W" for Welfare (usually same day), "P" for Priority, or "EMERGENCY" (immediately, by any means available)

#### Handling Code (optional; default is HXG):

HXA = OK to call collect (within \_\_\_\_ miles).

HXB = Cancel if not delivered within \_\_\_\_ hours.

HXC = Report date and time of delivery to originating station.

HXD = Report to origination station the identity of the station from which received, plus date and time. Also report the identity to whom sent, plus date and time.

HXE = Reply requested from destinee. (Get a return message).

HXF = Hold delivery until \_\_\_\_ (date).

HXG = Delivery by mail or toll call not required. If any expense, cancel and report to originating station.

**Check:** The Check is the number of words in the message. A word is defined as any string of alphanumeric characters without an internal space. "ARL FORTY SIX", for example, is three words.

If the Check word count is preceded by "ARL", the body of the message contains the word "ARL" followed by a number spelled out as one or two words. It's a code for an ARRL Numbered Radiogram. For example, "ARL FORTY SIX" means "Greetings on your birthday and best wishes for many more to come". Before delivering the message to the addressee, the canned phrase will have to be looked up and substituted for the ARL code.

**Punctuation:** Punctuation, such as period and comma, should be avoided, as it may slow down transmission by Morse code or RTTY.

Use an 'X' ("Xray") instead of a period, but count it as a seperate word. When reading the message to the addressee, read the 'X' like a period.

Instead of a decimal point, use the letter 'R' ("Romeo"), but read it as "point" when delivering the message to the addressee. For example, "146.94" is written as 146R94, and is one word.

**Signature:** The signature may include salutations like "With Love", or "Sincerely". These should be avoided, but are considered part of the signature, rather than text body, so they are not counted.

The signature may include a title, or even the sender's address and phone number, especially if a reply is expected.

**Above all:** Accuracy and dependability are far more important than speed, so take enough time to get it right.

## Ocean County NJ has an IOTA Number

The islands of New Jersey qualify, as a group, as IOTA entity number NA-111. Nearly all of that is within Ocean County. One of the smallest of these islands is Ham Island, in Little Egg Harbor, near Beach Haven Park.
